THURSDAY, FEBRUARY 6, 1885.

### BRANDON BUDGET.

The addition to the Canada Methodist Church is about completed.

The first meeting of the newly elected Board of School Trustees will be held this evening.

Judging from the list of arrivals at the different hotels, there are quite a number of persons travelling at present.

James A. Lowrey yesterday was up on a charge of malicious injury to property. The case adjourned till 10 a.m. today.

Last night the weather was the mildest experienced since the beginning of the year, and the Chinook breeze played among the trees as if at once along to bring the beautiful and glorious spring.

Yesterday P. Buckley made his bow to the Mayor to answer to the charge of having on the evening of last Sabbath assaulted George Crookshank. He was found guilty and fined for the misdemeanor.

Although tempting rewards are offered for information concerning Edwin A. Chapman, so far no tidings of him either living or dead have been obtained, and his friends almost despair of ever hearing of him.

There is at present quite a boom in police court matters and not a quiet passes but the cells are warmed by the presence of some unfortunate who has come under the vigilant eye of the guardians of the peace as they walk up and down and go to and fro about the city.

This morning's despatches announces that a shipment of fish for Brandon is on the road. No doubt the amount of brain power exhausted in getting the engine to work properly will necessitate a fish diet, and there will be no trouble in finding a ready market for the minnows.

W. J. Craig has opened out in the building known as the City Drug Store a stock of general merchandise. The goods are all fresh, and Mr. C. is prepared to give our citizens the benefit of cheap goods, and invite an inspection.

The Literary Society is connection with the Methodist church have prepared a special and attractive programme for Friday evening. All are invited to attend, and enjoy a few pleasant hours. The past record of the society warrants us in guaranteeing that all will be satisfied.

We are not aware as to whether there is a tax imposed upon dogs in this city or not, but judging from the number of canines who infest the streets without either tag or collar, there can be no restrictive laws. Would it not be well to have all owners of dogs pay a license. This would result in the survival of the fittest and the many noisy tykes and cans that make night hideous with their howls, would be absent from sight, and not to memory day by day.

The fire engine was again tested yesterday but owing to a tap blowing off which no doubt had been left unsecured, nothing was done in the way of filling the tanks. Another trial will be made to-morrow, when it is expected that all will be well. The present state of matters are not pleasant, and it is to be hoped that some one who thoroughly understands the engine will be found to put her in good running order, so that should a fire occur there will be something to rely upon to help extinguish the flames.

The persons who have occupied the attention of the police for some days past, had assumed the name of the "pea gang," a very high sounding cognomen indeed. Last night another of the "pods" in the person of one McDonald, was arrested by constable McPherson, on a warrant issued on information laid by Mr. Gabriel, for disorderly conduct on Monday night at the Windsor. This "pea vine" will be likely to appear before the Mayor to day, and if His Worship finds it sufficiently "ripe," will no doubt order it to be "shelled," and the process will go into the treasury of the city. The whole "stack" has now been run through the city separator so the "peas" have been half split and broken by the machine, but there is no denying that the work was well done.

It will be remembered that a few weeks ago a man named John Brannan was so unfortunate as to have a leg fractured by being struck by a chinking peg in the railway yard in this city. Since that time Mr. Pausen, the man who has been engaged on behalf of the railway company, and succeeded in collecting the following sums from the section men at the different points given below, for which the recipient desires to return his most sincere thanks. From Elk Horn, \$10; from Brandon, \$10; from Alexander, \$14.50; Oak Lake, \$6.00; Virden, \$15.50; Carberry, \$7.00; Brandon yard, \$15.25; making a total of \$109.25. Mr. Pausen states that he expects to receive further sums in a few days. Mr. P. deserves credit for the interest he has taken in the matter, and the railway men have by their contributions shown that they are generous and kind to fellow workmen in the hour of need.

The persons who were yesterday reported as being in the cooler, were tried for the offences with which they were charged. It appears that on Monday night the same persons made descent upon the Windsor Hotel and there created a disturbance, which led to an enjoyable social party being broken up. Mr. Gabriel sent for the aid of the police, but when Police Captain Campbell arrived on the scene the culprits had flown, and for the rest of the night made themselves scarce, but it was the same old drunk under which they labored when the depredations already mentioned, were committed at the Harris and Brandon Houses. When the cases came up for hearing John Whealin pleaded guilty of assaulting Mr. Williamson, and was fined \$12 and costs, on a similar charge preferred by Alphonse Valette, \$1 and costs settled the bill. El. O'Brien, for assault on Mr. Williamson, \$20 and costs, and for a similar offence on Arthur Fournier, a like fine and costs were assessed. E. Wright for assaulting Williamson paid \$20 and costs. All of the culprits except O'Brien paid their fines, and he is endeavoring to raise the wherewithal to allow him to pass beyond the pale. It is hoped that the lesson learned yesterday will be a lasting one and that it will be some time before they will again attempt to run a whole city, and do as they please.

### BRANDON BUSTLE.

#### ANOTHER BUSINESS FIRM.

How Messrs. Woodworth & Rounsefell are Making a Boom at the East End!

A Heavy Business Done, and More Coming.

At the east end of the city the firm of Messrs. Woodworth & Rounsefell are to be found doing business, and that they do an extensive trade can be seen at first glance. Near where the railway crosses First street, a switch is run in on their property and a stone house erected, from which grain is loaded into the cars, and shipped east in large quantities. So far this season over 30,000 bushels have been handled and it is expected that before spring at least from 60,000 to 80,000 bushels will be purchased. When sleighing is good, and the weather favorable, a number of sleighs which congregate in the vicinity of their store, is really surprising, and gives the place the appearance of a fair, and a stranger would be led to believe that he had come upon the market place for the city. They are agents for the sale of the celebrated article of flour manufactured by D. H. McMillan & Sons, of Winnipeg, of which a heavy stock is kept on hand, and sold in large quantities, all over city and also to points north, south and west.

The firm are also heavy dealers in wood, and have several thousand cords purchased.

They are present piling up over one thousand cords along the siding, and the remainder is at Newell, and will be brought to the city as soon as the present supply is exhausted.

Everything to facilitate the speedy

loading and unloading of cars are there to be found, and the amount of work done is surprising.

Leaving the outside one enters a store well filled with boots and shoes and groceries, which are sold wholesale and retail. Here the farmer can select from a fresh meat and clean stock, all kinds of groceries, and should he require anything in footwear, the display before him is so large that he cannot fail but be satisfied, while the prices are as low as in the province. The firm have a branch store at Medicine Hat in the Northwest Territories, and do a large trade with points west.

Their sales in one day recently amounted to over \$900, and they report a steadily increasing business, and look for a great boom

about in a month that will eclipse all former sales.

In conversation with Mr. Rounsefell we were informed that it is the intention of the firm to erect a large grain mill during the coming season, and have it in full running order before the harvest is ended. It will have a capacity of over two hundred barrels per day, and will be fitted up with rollers, and a first-class article of flour produced.

Before him is so large that he cannot fail but be satisfied, while the prices are as low as in the province. The firm have a branch store at Medicine Hat in the Northwest Territories, and do a large trade with points west.
